1. Product Overview

Introduction

The Claviar 7 is a slim-lined Bluetooth™ keyboard in a leather case for tablets up to 8-inch. The leather casing is universally designed, offering foldable standing options and supports the tablet in place by a flip stopper. The Claviar 7 is made from fine quality premium leather. It shows a slim design enhanced with a lightweight Bluetooth™ keyboard. With Claviar 7 you can easily be in control of all your typing and operational needs of your Tablet wherever you go.

2. Appearance and Interface Description

No. Name

1 Bluetooth™ status indicator: Blue LED will light up when on pairing mode.
2 Power switch: Toggle switch to turn the Bluetooth™ keyboard ON or OFF.
3 Power Indicator: The LED light will go ON when the battery is Almost run out.
4 Charging indicator: Orange LED will light up when charging the Bluetooth™ keyboard.
5 Pairing button: Press to enter the keyboard on pairing mode

3. Instructional Usage

3.1. Charging the Claviar7

Before first use, charge the Claviar7 using the charging cable provided. When charging, the LED indicator is orange, and when fully charged, it will go off.

3.2 Pairing with iPad mini

• Turn the switch toggle to ON and press the Bluetooth™ pairing button on the Claviar7. The Bluetooth™ LED will flash in blue and will be under detecting stage for 3 minutes.

• When the Bluetooth™ keyboard is discovered, select the "Claviar7" from the iPad mini screen, a passkey will appear on the screen of the iPad.

• Type in the passkey provided and press the "ENTER" key on the keyboard. Your Claviar7 keyboard will then be successfully paired with your iPad mini and ready to use.

*Pairing is only needed for the initial setup. After your first successful connection, the keyboard will connect automatically to your iPad when powered on.

4. Technical Specification:

Bluetooth™ interface: Version 3.0
Operating voltage: 4.2V
Working current: <5.0mA
Charging voltage: 5V
Standby time: 60 days (approx.)
Working time: 45 hours
Charging time: 2~3 hours
Lithium battery capacity: 180mAh
Key strength: 80±10g
Key life: 5 million strokes

5. Trouble Shooting:

If you are unable to connect the keyboard to your IPad mini, please try the following:
• Check if the battery is low. When the battery is low, some keys will react slowly and even won't work. Then, you should charge the battery.
• Check the power switch, make sure it is on. When it is on, the power light on the right top of the keyboard will flash for two seconds
• Restart the Bluetooth™ switch, make sure your IPad mini can find this device
